

State of Utah
Department of Commerce
Division of Occupational and Professional Licensing

JON M. HUNTSMAN, JR.
Governor

FRANCINE A. GIANI
Executive Director

J. CRAIG JACKSON
Division Director

To All Utah Licensed Electricians:

A recent change to the General Rules of the Utah Division of Occupational and Professional Licensing (Title R156-1-308a) changed the expiration date of all Utah electrical licenses from July 31 of each even-numbered year to November 30 of each even-numbered year (2006, 2008, etc).

Therefore, any active electrician license, as of July 31, 2006, will be automatically extended an additional four months to November 30, 2006.

This change was made due to input provided by the electrical industry requesting a renewal date that was not in the summer months – one of the industry's busiest times.

DOPL will not send out new license certificates reflecting the extended expiration date.

Instead, this letter serves as official documentation of the extension and must be kept with your blue license certificate. A copy of this letter should also be given to your employer(s). Additional copies of this letter are available at www.dopl.utah.gov. (Look under "DOPL News" in the bottom right corner.)

CONTINUING EDUCATION: Please be aware that the continuing education cycle for electricians also changed to coincide with the new renewal cycle. Therefore, for the current cycle only, licensed electricians have an additional four months to obtain the required 16 hours of continuing education. The next cycle will run from December 1, 2006, to November 30, 2008, and every two years thereafter.

Renewal notices will be mailed to each licensee's address of record in September 2006. Questions regarding this renewal extension may be directed to DOPL at 801-530-6628 or 866-275-3675 (toll-free in Utah).

Sincerely,

F. David Stanley
Associate Director for Construction Services

Dennis Meservy
Bureau Manager
